

BOARD OF DENTAL EXAMINERS OF ALABAMA

ALABAMA DENTAL HYGIENE PROGRAM

DENTIST-INSTRUCTOR MANUAL

APPLICATION PROCESS:

Step 1 Review, print, complete and submit application packet found on our website as soon as current information for the upcoming ADHP academic year is made available. All applications must be carefully completed and reviewed for accuracy before being submitted as incomplete applications will NOT be processed. A printed and signed copy of the ADHP Academic Integrity Policy **MUST** be mailed with application. All applications must include payment in full and must be mailed to the Board office address:

Board of Dental Examiners of Alabama
2229 Rocky Ridge Road
Birmingham, AL 35216

***Prior to applying confirm that you have NO conflict with academic sessions* ATTENDANCE IS MANDATORY TO ALL SESSIONS!** All academic sessions begin promptly at 8:00 AM and dismiss at 5:30 PM. The typical schedule will include:

2021-2022	Session 1	July 9, 2021	Orientation: Friday 3-5:00 pm
		July 10-12, 2021	Three days: Saturday - Monday
	Session 2	August 14-15	Two days: Saturday - Sunday
	Session 3	September 11-12	Two days: Saturday – Sunday
	Session 4	October 9-10	Two days: Saturday – Sunday
	Session 5	November 13-14	Two days: Saturday – Sunday
	Session 6	January 8-9, 2022	Two days: Saturday – Sunday
	Session 7	February 12-13	Two days: Saturday – Sunday
	Session 8	March 12-13	Two days: Saturday – Sunday
	Session 9	April 9	One day: Saturday

Written and Clinical Board Exam Dates will be announced at a later date

Step 2 ADHP REGISTRATION DEADLINE: Completed application must have a postmark of April 30!
ALL DOCUMENTATION MUST ACCOMPANY APPLICATION.
ALL FEES MUST ACCOMPANY APPLICATION.

ADHP Training Permit Fee	\$ 300.00
ADHP Training Education Fee	475.00
ADHP Instructional Material Fee	425.00
Application Fee	200.00
Total	
	\$1400.00

Step 3 Textbooks (Individual purchase) **Purchase prior to Session 1**
Textbook list found on page 5. For additional information for purchase of the textbooks, Typodont and instruments, you may wish to contact: Brent Girup at Oak Mountain Books, brent@oakmountainbooks.com

Oak Mountain Books, LLC
1 Buckton Rd.
Birmingham, AL 35242
(205) 999-5580

Extensive Reading Assignments are required prior to 1st session

ON COMPLETION OF THE ADHP:

Step 4 The Alabama Dental Hygiene Licensure Exam is typically in June of each year. Application for Alabama Dental Hygiene Licensure Exam is due at the time required by Licensing Agency who administers said exam, prior to Licensing Exam. Application is made to a Testing Agency to take the exam and a second application is made to the Board of Dental Examiners of Alabama for licensure.

Step 5 October 1 – The Annual Registration fees and continuing education requirements must be completed each year for the license to be in active status. Annual registration WILL BE due October 1, each year.

2021-2022 BOARD OF DENTAL EXAMINERS OF ALABAMA

President

Mark McIlwain, DMD, MD

Vice President

Kevin Sims, DMD, MS

Bruce Cunningham, DMD

Roberto Pischek, DMD

Marshall Williams, DDS

Melodie Jones, DMD

Sandra Kay Alexander, RDH

Administrative Staff:

Bradley Edmonds, Executive Director

Donna Dixon, Prosecuting Attorney

Gina Latham, ADHP Coordinator

Sonya Lankford, Business Manager

Linda Duglosz, Licensing Clerk

Cassandra Harlequin, Bookkeeper

Kevin Lane, Compliance Director

Blake Strickland, Investigator

Alabama Dental Hygiene Program Faculty:

**Hussein Basma, D.D.S, DESS,
MS**
Assistant Professor Department
of Periodontology, School of
Dentistry UAB

Michael Boykin, D.M.D., MS
VA Medical Center

Wayne Kerr, D.D.S., MAGD
Georgia Dental Association
Academy of General Dentistry
Speaker, Author, Clinician

**Maninder Kaur D.D.S.,
MPH, MS**
Assistant Professor Department
of Periodontology, School of
Dentistry UAB

Alvin Stevens, D.M.D., MA.Ed
Clinical Associate Professor
Department of Periodontology,
School of Dentistry UAB

Kenneth Tilashalski, D.M.D.
Professor and Associate Dean,
Academic Affairs
Department of Restorative
Sciences, School of Dentistry
UAB

Matthew Litz, D.D.S.
Clinical Associate Professor
Department of Periodontology,
School of Dentistry UAB

John A. Galdo, Pharm. D.
M.B.A, BCPS, BCGP

HISTORY AND ADHP FAQs

WHEN WAS THE ADHP ESTABLISHED?

In 1959, the legislature gave the Board authority to issue training permits to qualified dentists in accordance with a dental hygiene training program established by the Board. This authority allowed graduates from this program to qualify for licensure without the necessity of having to be a graduate of a school of dental hygiene approved by the Board. By 1960, preceptorship no longer existed as an optional route to licensure for dental hygienists. The Alabama Dental Hygiene Program is not a preceptorship in that an essential and necessary component of the Program is formal classroom education and training.

WHY WAS THE PROGRAM ESTABLISHED?

During the 1950s, several important changes occurred in Alabama and the nation. These changes can be seen in retrospect to have been essential to the creation of the Alabama Dental Hygiene Program. Among these changes was the creation of the first formal dental hygiene school at the University of Alabama School of Dentistry, the beginning of the statewide junior college system, and realization by the dental profession that preventive dentistry had not become a priority in the treatment of patients. Initially it was thought that concerns over the quality of the preceptor idea would be addressed by educating all dental hygienists in a traditional program in the School of Dentistry or in the new junior college system. However, studies in Alabama and other states confirmed that college trained hygienists tend to congregate in urban areas after graduation and had a higher attrition rate out of dental hygiene than did preceptor trained hygienists. Information from other states concerning the cost of traditional dental hygiene education showed sufficient public funding to educate the quantity of qualified dental hygienists needed by the people of our state. These factors---quality, quantity, costs, and distribution within the state; and a commitment to preventive dentistry for patients stimulated those in leadership positions in the Alabama Dental Association and the Board of Dental Examiners to consider non-traditional programs for educating dental hygienists. The Alabama Dental Hygiene Program was established one decision at a time, one step at a time, over a period of ten years.

DOES THE BOARD OF DENTAL EXAMINERS OF ALABAMA ADMINISTER THE PROGRAM? Yes.

DOES THE ALABAMA DENTAL ASSOCIATION SUPPORT THE ADHP? Yes

THE ADHP IS NOT A "PRECEPTORSHIP"

The acronym for the Alabama Dental Hygiene Program is ADHP. It is not accurate to identify the graduates of the ADHP (Program) as "Preceptorship" trained. The term "preceptorship" implies that the program is informal and unstructured. Because of the highly organized and structured academic nature of our program, it is inappropriate to refer to it as a preceptorship.

WHAT IS THE RATIO OF DENTISTS TO DENTAL HYGIENISTS IN ALABAMA?

The ratio in Alabama is 1 dentist to 2 hygienists. Currently, Alabama has over 4,443 hygienists holding active license status with approximately 3,516 trained through the Alabama Dental Hygiene Program. Of the number holding active status over 4,278 hygienists reside within Alabama. Around 927 went to community college or universities. Additionally, there are about 2,300 active dentists currently practicing in the State of Alabama.

WHAT SHOULD YOUR STUDENT HYGIENIST EXPECT FROM YOU?

ENCOURAGEMENT AND SUPPORT – The most important! As the dentist-instructor YOU are accepting the responsibility as the instructor of clinical skills and as a mentor for academic assistance. To be successful your student needs your help.

EMPLOYMENT – 30 hours per week

1) As stated elsewhere, one of the basic requirements for participation in the ADHP is that the student is employed a minimum of thirty hours (30) per week, or 3-1/2 days per week, by the clinical instructor. Prior to enrollment, as the employer, it is important that you accept responsibility that this condition can be satisfied.

2) Termination of employment during the enrollment period requires notification to the Board demonstrating just cause. Careful consideration of the work ethic of the candidate you are sponsoring is critical; likewise, as the dentist-instructor, the Board accepts your request to enroll a candidate with the assumption that you are accepting the commitment to fulfill all requirements of the Alabama Dental Hygiene Program.

ADEQUATE NUMBER OF PROCEDURES - Students are required to complete 150 prophies with a minimum of 100 completed on patients with permanent or mixed dentition. Additionally, he/she must be skilled in

exposing all types of radiographs, must demonstrate the ability to accurately record the location and extent of dental restorations, chart mobility, furcations, gingival recession, keratinized gingival, pocket depth on six aspects of each tooth, and assist with periodontal treatment planning. Dental practices that are limited to specialty areas should carefully consider the clinical opportunities that are available during the course of daily operations prior to enrollment of a candidate. It is important that the candidate have a patient base that allows demonstration of clinical skills related to scaling and root planing.

INSTRUCTION - Set aside time on a daily basis. Utilize the ADHP instructional videos to supplement your instruction. The videos should be reviewed frequently to reinforce skills. Provide assistance by reviewing academic material. Textbook diagrams, anatomical landmarks and instrumentation should be discussed with the student at the chair as well as in the academic lecture. The material covered during lecture and slides will be better understood when you take the time to bring the lecture material into the daily clinic setting.

Prior to the first academic session, an overview of all textbooks is mandatory. Specific reading assignments for the first academic session will be included in the application information. Textbook references required for specific lectures will be distributed throughout the year. The completion of all reading assignments is vital to the learning process. The ADHP manual will be constructed from the individual lecture presentations, but under no circumstance can the manual be considered the sole text for the material required. Independent study of the textbooks is necessary to develop the foundation for the lecture as well as a means to enhance the lecture topics when preparing for exams.

ADHP CANDIDATE SELECTION:

The certified dentist instructor serves as the first step in the selection process of a candidate. *The student must have completed 24 months of full-time employment as a chair side dental assistant. Please refer to Rule 270-X-3-.04, Alabama Dental Hygiene Program Requirements, for complete details.* The academic instruction is intense. Please evaluate the dental skills and knowledge of the individual you plan to enroll. Although prior education and study skills are important considerations, a strong working knowledge of routine dental procedures, terminology, radiographic skills, infection control procedures, medical emergencies, and CPR certification are required for admittance into the ADHP.

The dentist and candidate should carefully evaluate their working relationship and be committed to the full year of the program. Careful consideration of family obligations and their personal commitment to this opportunity is critical. The independent study required for this program is best suited for highly motivated, mature individuals.

Please retain this manual and allow prospective candidates an opportunity to become familiar with the ADHP prior to the decision to enroll.

ADHP Academic Sessions

Student attendance is mandatory at each session. No early exits are allowed.

All academic sessions begin at **8:00 A.M.** and end at **5:30 P.M.**

In the past, each session has been held at Volker Hall (1600 University Blvd.) next to Lister Hill Library, on the campus of UAB. Because of Covid-19 restrictions, the ADHP academic sessions will be conducted online via live ZOOM classes until further notice.

The academic schedule is confirmed each year prior to the publication of the applications for the current program year and can be found on the Board website.

Current year materials list and textbooks are listed within the application. ADHP/CITA Required Instruments include:

- A) Mouth Mirror (untinted front-surface)/handle
- B) XP23/06 Michigan O Expro w/Williams markings
- C) ODU #11/12 explorer
- D) Scaler: (double-end) Nos. U-15/30
- E) Curette: (double-end) Columbia Nos. 13/14
- F) Curette: (double-end) Gracey Nos. 1/2

- G) Curette: (double-end) Gracey Nos. 3/4
- H) Curette: (double-end) Gracey Nos. 11/12
- I) Curette: (double-end) Gracey Nos. P7/P8

Required Book List: (revised January 2021)

** Prices subject to change – shipping charge added to shipped orders*

ADHP CLASSROOM PROTOCOL

PLEASE REVIEW THIS PROTOCOL WITH YOUR STUDENT. IT IS IMPORTANT THAT EVERYONE HAVE A CLEAR UNDERSTANDING OF THE CLASSROOM RULES.

1. ATTENDANCE IS MANDATORY FOR ALL ACADEMIC SESSIONS (THE ONLY ALLOWABLE ABSENCES ARE THOSE APPROVED). APPROVED ABSENCES ARE THE EXCEPTION RATHER THAN THE RULE AND WILL NOT BE APPROVED UNLESS THERE ARE COMPELLING REASONS. YOU ARE REMINDED THAT A SCHEDULE OF CLASSES WAS PROVIDED PRIOR TO ENROLLMENT.

2. ANY STUDENT WHO IS LATE TWO (2) TIMES CAN BE PUT ON PROBATION AND A LETTER SENT TO HIS/HER EMPLOYER. A STUDENT WHO IS LATE THREE (3) TIMES CAN BE EXPELLED.

3. SNACKS OR DRINKS WILL BE ALLOWED IN THE CLASSROOM.

4. BREAKS WILL BE SET BY THE LECTURER. USE YOUR TIME WISELY AND DO NOT LEAVE DURING A LECTURE UNLESS ABSOLUTELY NECESSARY.

5. CELL PHONES MUST REMAIN OFF IN THE CLASSROOM, AND ARE NOT ALLOWED AT ALL DURING EXAMS. NO TEXTING!

6. WE ENCOURAGE CARPOOLING FOR OUT OF TOWN STUDENTS, BUT IF ONE HAS TO LEAVE DUE TO SICKNESS OR A FAMILY EMERGENCY, THAT STUDENT IS THE ONLY ONE EXCUSED (WITH A WRITTEN EXCUSE). ALL OTHER RIDERS WILL NEED TO FIND ANOTHER SOURCE OF TRANSPORTATION.

7. NO SLEEPING, SURFING THE WEB ON A CELL PHONE, OR OTHER INATTENTIVENESS WILL BE ALLOWED DURING LECTURES.

AS A MATURE ADULT WHO HAS CHOSEN TO OBTAIN A PROFESSIONAL LICENSE, IT IS EXPECTED THAT YOU WILL CONDUCT YOURSELF ACCORDINGLY BY BEING ON TIME, ATTENTIVE AND COOPERATIVE DURING CLASS, AND APPROPRIATELY ATTIRED.

THE PROGRAM RESERVES THE RIGHT TO EXPEL STUDENTS FROM THE PROGRAM FOR VIOLATING ANY OF THE REQUIREMENTS ABOVE.

Alabama Dental Hygiene Program **QUALIFICATIONS AND GENERAL INFORMATION**

The Alabama Dental Hygiene Program is authorized by Code of Alabama, 1975 §34-9-27. The board rule governing this program is 270-X-3-.04. This program is not affiliated with the University of Alabama Birmingham. The ADHP is conducted by the Board of Dental Examiners of Alabama.

To be eligible to enroll in the Alabama Dental Hygiene Program, the student hygienists must be employed full time (minimum 30 hours, or 3-1/2 days, per week) by a certified dentist/instructor for the entire length of the program. The candidate must have worked twenty-four months (full time) as a dental assistant before entering the Alabama Dental Hygiene Program, or the equivalent in part-time employment in the 3 years preceding the student's enrollment. A high school diploma or equivalent is necessary, as is a commitment to an intense year of study and clinical instruction. Attendance is mandatory for all academic sessions. A grade point average of 75 percent is required to pass the program. The student hygienist and dentist-instructor will be notified of all grades at the dentist-instructor's email address so they can review academic progress. The student hygienist must work under the direct supervision of the dentist-instructor. See board rule 270-X-3-.06 for the definition of "direct supervision."

It is important that the student hygienist, before entering the program, demonstrate competency in performing the procedures authorized by Code of Alabama § 270-X-3-.10, the Duties of Allied Dental Personnel. A radiographic continuing education course is very beneficial if the assistant did not graduate from an accredited dental assisting program. *The candidate shall provide documentation of hepatitis vaccination or titer results, current CPR certification, and the completion of a minimum of two hours infectious disease training. The infectious disease training can be through lecture, online, or home study.*

Student hygienists are required to complete the assigned performance checks, evaluations, and 150 prophylactic procedures with a minimum of 100 patients with permanent and/or mixed dentition. The student hygienist is expected to perform a minimum of two prophylactic

procedures per week. More than 180 classroom hours of didactic instruction are completed throughout the academic year. Living accommodations are the responsibility of the student hygienist and vary in cost depending on whether the student hygienist commutes or stays near the UAB campus (applicable when sessions are conducted in person), or wherever in-person academic sessions are conducted.

Each academic session will devote approximately eight hours per day to lectures, and may include audio visual aids, supervised study, laboratory and library work, or other appropriate study methods. Academic hours cover anatomy, radiology, preventive dentistry, periodontics, pathology, pharmacology, infection control, law and ethics, public health dentistry, and related topics. Written examinations on material presented during the lectures will be given at the beginning of the next academic session. Examination papers will not be returned nor reviewed with the dentist-instructor or student.

The majority of the academic lecture is related to the textbooks by Nield-Gehrig:

- 1) Foundations of Periodontics for the Dental Hygienist
- 2) Fundamentals of Periodontal Instrumentation & Advanced Root Instrumentation

Wilkins:

- 3) Clinical Practice of Dental Hygiene

However, other subjects that are covered include:

- 1) Infection Control
- 2) Office Emergencies
- 3) Pharmacology
- 4) Oral Pathology
- 5) Radiology
- 6) Preventive Dentistry
- 7) Board Presentation on Law and Ethics and the Alabama Dental Professionals Wellness Committee

A guideline of the lecture schedule will be provided for the selection of courses prior to the first academic session. Due to the stringent time constraints of the academic schedule, in the event that unavoidable circumstances (illness of faculty, weather, etc.) occur, the Board reserves the

right to adjust the lecture schedule to ensure that every aspect of the curriculum is provided to the ADHP candidates.

Policy on Transfer of Training Permit

Transferring of permits is strongly discouraged and will be allowed only in rare circumstances where compelling reasons are presented. **ANY TRANSFER WITHOUT FIRST OBTAINING BOARD APPROVAL IS NULL AND VOID AND MAY RESULT IN THE STUDENT HYGIENIST BEING DISCHARGED FROM THE PROGRAM.** Documentation for transfer shall include permission from the sponsoring dentist-instructor, a written request from the student, and acceptance from the new sponsoring dentist, all of which must be received and approved by the Board for the transfer to be considered. **REMEMBER, TRANSFERRING IS NOT AN ABSOLUTE RIGHT. IT IS LEFT TO THE BOARD'S DISCRETION.** No request for transfer will be considered unless the student hygienist is in academic good standing and continues to meet the original admission requirements of the ADHP. A student may change instructors only once during the ADHP year.

Return of Permit

On the successful completion of the ADHP, the temporary training permit is valid until the date of the next available Dental Hygiene Licensing Exam. The permit is void on that date and the permit must be presented at final registration. All dental hygiene duties must cease with the return of the training permit and may not be resumed until the student's application for licensure is approved by the board and the student receives their license.

The following circumstances require the **IMMEDIATE** return of the Alabama Dental Hygiene Program Training Permit. With the return of the permit the candidate must **CEASE** performing all duties identified as exclusive duties of a dental hygienist.

1. Absence from an academic session in which no accepted excuse is provided
2. Failure to obtain a grade point average of 75% of the requirements established for the program year
3. Termination of employment by either party
4. Notification of disciplinary action or failure to comply with the provisions of the Alabama Dental Practice Act

Grade Criteria and Requirements:

As set forth above, the following criteria and requirements must be satisfied.

1) A student hygienist must have a grade point average of 75% to successfully complete the program.

2) **Performance Checks**, located in the Niels-Gehrig: Fundamentals of Periodontal Instrumentation & Advanced Root Instrumentation textbook, **shall be completed under direct supervision of the dentist-instructor and are used to document clinical instruction.** The performance checks are designed with the intent that they complement the academic sessions and assess the clinical progress. Utilization of the Gehrig textbook, the recommendations from the ADHP Dentist-Instructor Manual and the ADHP Videos will allow instruction to progress with one segment building on the next more difficult procedure. The dentist-instructor is responsible for guiding clinical instruction for the student hygienist to proceed in a gradual process while allowing ample exposure to all aspects of dental hygiene.

The completion of each performance check is entirely dependent on the attainment of competency by the student hygienist. Students should be given an opportunity to gain confidence as well as competency before proceeding to the next level of instruction. The Board views the performance checks as your opportunity for clinical assessment. Your signature attests that the student has received adequate instruction and competency. No credit will be given for performance checks received after the due date.

Performance checks without the dentist-instructor's signature will be considered incomplete.

Instruction on the focus of each Performance Check should include the following checkpoints by the dentist-instructor, one on one with the student hygienist:

1. Read and discuss the reading assignments in periodontal and instrumentation textbooks
2. Demonstration by the dentist-instructor on study model or dentoform
3. Discussion of the purpose of the Performance Checks
4. Clinical demonstration by dentist instructor
5. Repeated clinical performance of the task by student hygienist
6. Constant evaluation and instruction to assure competency by the student before proceeding to the next task level
7. Certification by the dentist-instructor to the Board of Dental Examiners of the competency level of the student

3) A candidate must complete 150 prophylactic procedures with a minimum of 100 of the procedures being completed on patients with permanent and/or mixed dentition.

4) On successful completion of the ADHP, students must apply for both Licensing exam and Alabama Licensure. The fees for the exam and licensure are not included.

A minimum of 75% is required to pass the Alabama Dental Hygiene Written Licensure Examination. You will be provided with the exact date of the licensure exam as soon as possible. The Licensure Exam consists of written exams on law, radiation safety, and a comprehensive exam on dental hygiene. Additionally, a clinical exercise is required.

PATIENT SELECTION CRITERIA FOR LICENSING EXAM

Patient Criteria are set by the testing administrator each year. Students will be provided the criteria in a timely manner. (Patient selection criteria apply when clinical examinations are conducted on live patients.)

Patient Selection:

It takes many months of screening patients to find one that is acceptable and one that your student feels certain will be a good board patient. The dentist-instructor plays a major role in assisting the student in finding a patient that meets the criteria. Neither the Board of Dental Examiners nor the School of Dentistry is responsible for assisting or providing patients for student hygienists.

What the Dentist-Instructor Can Do To Aid His/Her ADHP Student: Helpful Hints

(Dr. Weatherford – 1998-99 notes)

1. CAREFULLY SELECT YOUR STUDENT.

(A) A person who has the necessary desire, motivation, aptitude, ability, dependability – and time. (B) A person of character and integrity – one who will bring credit and pride to our profession and to your practice. (C) A person who is a team player, compatible with you and your staff and who is likely to remain with you. **REMEMBER: You are the selection committee!!**

2. BE WILLING AND PREPARED TO HELP YOUR STUDENT – ESPECIALLY WITH THE CLINICAL ASPECTS.

Your student likely will need help from you with all aspects of the program, and only you are in a position to truly teach the clinical procedures. What is offered in academic sessions is didactic only – notes, slides, tapes, and one lab session using typodont models. This information must be clinically applied in your office with you (perhaps with assistance from an experienced proficient office hygienist) providing daily guidance and instruction. This Manual is an invaluable guide for this instruction.

3. SEE THAT YOUR STUDENT HAS ALL THE NEEDED RESOURCES.

The required manual, books, videos, instruments, and typodont models are listed in the informational material and in the ADHP Manual. All of these items will be needed as soon as instruction begins.

4. HELP THE STUDENT WITH BASIC KNOWLEDGE INCLUDING TERMINOLOGY.

Your student has been employed in a dental office for at least twenty-four (24) months and will be expected to know basic dental vocabulary on the day of enrollment. Review this with your student and help as additional more specialized terms are encountered. A review of high school or college cell biology will be useful.

5. ENCOURAGE AND MOTIVATE THE STUDENT.

Spend regularly scheduled time with your student. Enlist the help of other office personnel and make it an office-team effort to see that your student succeeds. Your office has invested considerably in this student and it is of benefit to all that the student succeeds. Consider allowing the student to study during “broken appointments,” etc.

6. REGULARLY REVIEW VIDEO AND TEXT DIAGRAMS WITH YOUR STUDENT.

Schedule time for this – perhaps, during the lunch hour? There are many helpful diagrams, etc. in the required texts and the videos, and you may have other helpful aids in your office references.

7. PROMOTE THE CONSISTENT USE OF ALL RESOURCES.

Remind your student to regularly and systematically review and use the ADHP manual, required textbooks (including reading assignments), instruments, videos, and typodont models. These long-lasting models are useful for many things:

1) demonstration of anatomical features and pathosis, the state of disease, or condition; 2) showing examination techniques; 3) demonstration of instrumentation for scaling, root planing, etc.; 4) teaching your student patient education and plaque control (and later for the student to use for the same purposes with patients).

8. CONSIDER MAKING A MODEL OF EXTRACTED TEETH FOR YOUR STUDENT.

Extracted teeth can be aligned and set in stone leaving most of the roots exposed. Then the roots can be covered with “gingival” constructed from rubber base or similar impression material. This model will be useful in learning root anatomy, “subgingival” exploration and calculus removal, and the tactile “feel” of cementum. (Typodont roots are different from roots of natural teeth in morphology and tactile sensation.)

9. ASSIST YOUR STUDENT TO DEMONSTRATE ANATOMICAL FEATURES AND CLINICAL PROCEDURES FIRST ON MODELS, CO-WORKERS, AND FRIENDS.

Point out and help your student learn anatomical land-marks and fundamentals of hand positions, instrumentation etc. in a relatively stress-free environment where the student and you feel free to ask and answer questions. Allow time for the student to proceed slowly and deliberately and learn the basic things well.

10. ARRANGE FOR INCREASINGLY DIFFICULT PATIENTS FOR YOUR STUDENT.

As is suggested in this Manual, have your student begin with relatively healthy, easily-managed patients and progress to increasingly difficult patients as your assessment of their clinical skills indicates that advancement is appropriate. Sit with and critique your student after each session.

11. DO THE MODULES CAREFULLY AND CONSCIENTIOUSLY.

Objectively evaluate performance and allow the student to progress to the next module only when you are absolutely sure that advancement is warranted. Your signature is your word that the student has successfully completed the performance check under your supervision and observation.

12. GIVE YOUR STUDENT “MOCK” EXAMINATIONS.

These examinations can assess both the clinical skills and didactic knowledge of your student.

13. FOLLOW UP ON ANY REPORTED OR SUSPECTED DEFICIENCIES.

Be aware of what is expected of your student in terms of personal and professional conduct and their grades. In the ADHP Manual, there are reading assignments, outlines of course content, and a protocol of classroom conduct that the Board of Dental Examiners and the faculty expect students to meet. Begin monitoring of your student very early in the program and continue it. Do not permit the student to slip into serious deficiencies without your knowledge. Let your student know that you consider participation in the ADHP, by the student and you, as a serious commitment and that your student is expected to do well.

14. BEGIN EARLY TO IDENTIFY POTENTIAL PATIENTS FOR YOUR STUDENT. It is impossible to start this too early. Identify more than one patient and begin to prepare them for the Board examination (when live-patient examinations are required).

15. CALL ME IF YOU THINK THAT I CAN ASSIST YOU AND YOUR STUDENT:
Gina Latham, 205-985-7267, ext. 222.

Guide for Clinical Instruction

It is very important for you to provide your student with all types of clinical experience. The following is a proposed schedule for you to adapt to your particular practice:

July - Aug.	Identification of normal and abnormal oral anatomy. Charting utilizing the Universal Tooth Numbering System (1-32), OHI, Vital Signs and Medical History Evaluation, Polishing, and the removal of minimal calculus.
Aug. - Sept.	Patients with minimal calculus, OHI, medical history, Blood Pressure, Caries and Calculus Detection. Proficient with polishing, flossing. (Minimum of 10-15 patients)

Sept. - Nov.	Light Supra gingival calculus; minimal sub-gingival calculus; probing; OHI (Minimum of 20-25 patients)
Nov. - Jan.	Moderate supra-gingival calculus; light to moderate sub-gingival calculus. Begin looking for individuals that could be a good candidate for the State Board Exam (Minimum of 20-25 patients)
Jan.- Feb.	Heavy calculus, supra and sub-gingival, stain; proficiency with periodontal probing (Minimum of 20-25 patients)
Feb. - Mar.	For the remainder of the program provide a variety of patients, including State Board caliber patients. (Minimum of 20-25 patients)
Mar. - Apr.	(Minimum of 20-25 patients)
Apr. - May	Application for Licensure Exam due (Minimum of 20-25 patients)
May/June	Dental Hygiene Licensure Exam

Rule 270-X-3-.04, Alabama Dental Hygiene Program Requirements

(1) Each applicant for the ADHP must be at least nineteen (19) years of age when applying to begin training, of good moral character, free of communicable diseases, a citizen of the United States or a person who is legally present in the United States with appropriate documentation from the federal government, and must be a graduate of an accredited high school or hold a GED certificate.

(2) Each ADHP student must have had at least twenty-four (24) full months of full time employment as a dental assistant, or the equivalent of twenty-four (24) full months in part-time employment within the three (3) years immediately preceding the student's enrollment in the ADHP. That time must have been spent assisting a dentist(s) and/or hygienist(s) at the chair. Full time shall mean employment of at least three and one-half (3-1/2) days or thirty (30) hours of Board approved employment per week. Graduates of an approved school of dental assisting will be given credit for such course on a formula determined by the Board.

(3) Each ADHP student must be employed full time during the effective period of the training permit before being eligible to take the Dental Hygiene Licensure examination. Full time shall mean employment of at least three and one-half (3-1/2) days or thirty (30) hours of Board approved employment per week with their primary certified dentist instructor whose name appears on the training permit. "Board approved employment" means employment that can provide the student the opportunity to perform the types and quantities of procedures required by the ADHP. Any dentist licensed and practicing dentistry full time in the State of Alabama may be issued an "ADHP Instructor Certificate" upon completion of the ADHP Instructor Certification Training and application to the Board of Dental Examiners, which shall have the discretion to grant or deny such certification. The issued certification shall be valid for three (3) years from the date of issuance.

(4) ADHP students may practice only under the direct supervision of the dentist whose name appears on the training permit; however, another dentist employed in the same office who is certified pursuant to this Rule may

perform pre and post prophylactic examinations of the ADHP student's patients.

(5) The closing date for accepting applications for training permits for each year will be determined by the ADHP.

(6) ADHP students are allowed one transfer of their training permit per course year, upon written request, and only upon approval by the ADHP or the Board. During the period of the ADHP student training permit, should the student's employment with their initial instructor-dentist be terminated, the student will be allowed to continue in the program only if their employment was terminated for a reason acceptable to the Board. Any ADHP student who fails to be employed or supervised by an instructor certified dentist for more than sixty (60) days during the course of the program shall be dismissed from the ADHP. An ADHP student who has participated in the Alabama Dental Hygiene Program twice unsuccessfully may apply to participate in the program a third time at the discretion of the Board after two (2) years of continual full time employment as a dental assistant.

(7) Each ADHP student must attend every academic instruction session. A student who fails to attend any session of academic instruction is no longer eligible for a training permit without consent of the Board, which shall be at the Board's discretion. If an ADHP student misses any part of an academic instruction session, the student must submit a written explanation of the absence within five (5) business days of the absence to the Board office for review and request permission to continue in the program.

(8) No dentist shall be permitted to train more than one (1) ADHP student at a time.

(9) ADHP students who obtain training in the ADHP must pay a fee in an amount fixed by the Board (this includes training permit, education, and instructional materials fees), which must be enclosed with the application. The education portion of the fee may be refunded only within the first thirty (30) days of issuance and only at the Board's discretion.

(10) Any instance of dishonesty of any kind in any way related to the ADHP shall result in dismissal from the program.

(11) The Board may limit the number of participants to ensure adequate function and integrity of the ADHP.

Rule 270-X-3-.06, Direct Supervision Defined

Direct supervision is defined as supervision by a dentist who authorizes the intraoral procedure to be performed, is physically present in the dental facility and available during performance of the procedure, examines the patient during the procedure and takes full professional responsibility for the completed procedure.

Author: James S. Ward

Statutory Authority: Code of Ala. 1975, §§34-9-2, 34-9-27, 34-9-43.

History: Filed September 28, 1982. **Amended:** April 3, 1997; effective May 8, 1997. **Amended:** Filed February 22, 2012; effective March 28, 2012.

Rule 270-X-3-.10, Duties Of Allied Dental Personnel

Allied dental personnel are dental hygienists, dental assistants and dental laboratory technicians.

Subject to the prohibition that no intra-oral procedure can be performed unless under the direct supervision of a duly licensed dentist as defined by Board rule, the following allied dental personnel may perform the following:

(1) Dental Laboratory Technicians:

(a) No intra-oral duties are allowable other than assisting the dentist in determining tooth color.

(2) Dental Assistants and Dental Hygienists:

(a) Preliminary charting and inspection of the oral cavity. (Final examination and diagnosis must be made by a dentist before treatment can be instituted.)

(b) Apply topical agents under direct supervision of the dentist.

1. Apply topical anesthetics.

2. Oxygenating Agents. (Excluding endodontic therapy.)

3. Apply anti-inflammatory agents.

4. Apply astringents.

5. Desensitizing agents.

6. Topical fluoride.

7. Apply light-cured medicinal bonding agents.

8. Apply etchant materials.

(c) Place and remove rubber dam.

(d) Place and remove periodontal dressings.

(e) Place and remove alveolar socket dressings.

(f) Construct and remove with hand instruments only interim restorations. (Interim restorations being any restoration placed while a more permanent restoration is being completed.)

(g) Construct and place temporary crowns (excluding stainless steel crowns placed with intentions of reasonable permanency.)

(h) Contour stainless steel or chrome crowns but cannot cement them.

(i) Pre-fit and pre-contour orthodontic appliances either extra-orally or intra-orally for final adaptation by the dentist.

(j) Remove excess cement with hand instruments from around permanent dental restorations and orthodontic appliances.

(k) Make impressions for diagnostic casts or opposing casts.

(l) Place, wedge and remove matrices for operative dentistry.

(m) Take and record case history, blood pressure, pulse, and oral temperature.

(n) Remove intraoral sutures. (Excluding wire sutures.)

(o) Make dental radiographs or digital images.

(p) Give oral hygiene instructions including plaque staining, flossing, brushing, and caries susceptibility tests.

(q) Place cavity liners and bases. (Excluding capping of exposed pulpal tissues.)

(r) Assist in the administering of N2O and O2.

(s) Insert into the mouth of the patient wax models of dentures, partial dentures, or any other structures and make adjustments outside the mouth of the patient to such wax models pursuant to written or verbal instructions or directions from the dentist; provided, however,

1. That the dental hygienist or dental assistant may use these wax models of dentures, partial dentures or any other structure to register the jaw relationships or occlusal relationships of the patient, and

2. That before such wax models may be used for the manufacture of dentures, partial dentures or other structures the dentist shall personally consult with the patient, examine such wax models, and make such additional adjustments as may be required.

(t) Insert into the mouth of the patient dentures, partial dentures, removable orthodontic appliances, prostheses, devices to treat sleep apnea or anti-snoring devices, or any other structures and make adjustments outside the mouth of the patient to the dentures, prostheses (fixed or removable), removable orthodontic appliances, prosthetic appliances, bridges, or other structures pursuant to written or verbal instructions or directions from the dentist; provided, however,

1. That before such prostheses (fixed or removable), removable orthodontic appliances, or other structures are delivered to the patient leaving the dental office with such removable orthodontic appliances, prostheses (fixed or removable) or other structures the dentist shall personally consult with the patient, examine such prostheses (fixed or removable), removable orthodontic appliances, or other structures, and make such additional adjustments as may be required; and

2. That final placement and cementation of all fixed appliances, fixed prostheses and other fixed structures shall be performed by the dentist.

(u) Apply reversible liners and bases to prostheses, orthodontic appliances, or any other structures. However, the dentist shall personally consult with the patient and examiner such liners and bases, and make such additional adjustments as may be required.

(v) Place and remove gingival retraction materials.

(w) Make final impressions for removable and fixed prostheses, orthodontic appliances, retainers, devices to treat sleep apnea or anti-snoring devices, and medicament/whitening delivery trays. However, before said

impressions may be used for the manufacture of prostheses and appliances, the dentist shall examine and approve such impressions for accuracy.

(x) Use laser and/or narrow band (light) imaging technology for preliminary diagnostic purposes only with the dentist's final examination and diagnosis.

(3) Dental Hygienists Only:

(a) Remove extrinsic stains, accretions, and calcareous deposits from teeth.

(b) Gingival curettage.

(c) Root planing.

(d) Polish completed restorations.

(e) Place Pit and Fissure Sealant and polish and adjust sealant as needed.

(f) Place resorbable chlorhexidine chips.

(g) Place topical or sub-gingival antimicrobial or antibacterial agents.

(h) Periodontal probing.

(i) Bleaching of teeth.
